

Branded labels for small series

Coloured logo labels custom made at a reasonable price

- with logo
- in 4-colour printing
- from 1,000 pieces
- from 121,50 €

A powerful appearance of your own brand demonstrates self-confidence and competence. Labels with logo show brand identity right on the product. Affordably manufactured by eXtra4 in digital printing, individual labels let even small collections benefit from the power of their brand.

Digitally printed labels have jeweler quality. They are resistant to common ultrasonic bath. Under direct UV radiation, they keep their intensive colours for a long time. Like traditionally printed labels, they are suitable for marking in thermal transfer printers. They can also be written on by hand, even waterproof with a permanent marker from eXtra4.

It is that easy to get your own label with logo: You provide us with the desired artwork in PDF format. We prepare the data, for which we charge a one-off small amount. Now you can use your logo time and time again for affordable labels in consistent quality.

Due to the general cost situation, we can no more keep our prices constant over a longer period of time, but have to permanently adjust them to the supply market. Please find up-to-date prices in our online shop.
